Job Opportunities

Date: Monday Novem**ber 17, 2020**

Department: Africa CDC Headquarters

Duty Station: Addis Ababa, Ethiopia

Application deadline: Friday November 27, 2020

Background:

The African Field Epidemiology Network (AFENET) is a non-profit organization established in 2005 with a mission to improve human health through the strengthening and expansion of applied epidemiology and laboratory capacity in partnership with Ministries of Health, Non-Governmental Organizations, international agencies, private sector and other public health agencies. AFENET has its headquarters in Kampala, Uganda with operations in more than 30 African Countries.

The African Union, established as a unique Pan African continental body, is charged with spearheading Africa's rapid integration and sustainable development by promoting unity, solidarity, cohesion and cooperation among the peoples of Africa and African States as well as developing a new partnership worldwide. Its headquarters is located in Addis Ababa, capital city of Ethiopia.

Officially launched in Addis Ababa, Ethiopia in January 2017 as a specialized technical institution of the African Union, the Africa Centres for Disease Control and Prevention (Africa CDC) is Africa's first continent-wide public health agency. Africa CDC envisions a safer, healthier, integrated and stronger Africa, where Member States are capable of effectively responding to outbreaks of infectious diseases and other public health threats. The agency's mission is to strengthen Africa's public health institutions' capabilities to detect and respond quickly and effectively to disease outbreaks and other health burdens through an integrated network of continent-wide preparedness and response, surveillance, laboratory, and research programs. Towards meeting its mission, the Africa CDC will work with African Union (AU) Member States, WHO, and partners in the five geographic regions of the AU to strengthen their capacity in at least five strategic priority areas: (1) public health surveillance and disease intelligence; (2) public health emergency preparedness and response; (3) public health laboratory systems and networks; (4) public health information and technology systems; and (5) public health research and public

health institutes. In general, the ultimate purpose of the Africa CDC Strategic Plan, in line with Agenda 2063, is to attain an integrated and prosperous Africa that has healthy, well-nourished citizens with long life spans by controlling and/or eradicating all communicable and non-communicable diseases.

Robust, integrated systems will be in place to significantly reduce non-communicable and lifestyle-related diseases, including obesity, diabetes, cardiovascular diseases, and deaths from HIV/ AIDS, Malaria and Tuberculosis will be reduced to zero. Integrated and comprehensive health services and infrastructure will be in place, where services are available, accessible, affordable, appropriate and of quality.

In seeking to achieve this objective, the Africa CDC in partnership with AFENET intends to strengthen its capacity to deliver by, among others, the reinforcement of its organizational structure and expertise.

1. Post

Job title: **Senior Monitoring and Evaluation Officer**
Grade: **AU P3/1 equivalency**
Number of posts: **1 (one)**
Department: **Africa CDC Headquarters**
Supervisor: **Deputy Director**
Duty Station: **Addis Ababa, Ethiopia**

Job Purpose

The Monitoring and Evaluation Officer will be responsible to support activities under the Office of the Deputy Director by carrying out a variety of technical support services and programmatic activities in the area of monitoring and evaluation, risk management, and other public health programme implementation.

7. Post:

Job Title:	**Technical Officer - Emergency Preparedness and Response (EPR)**
Number of posts:	**1 (one)**
Grade:	**AU P2/1 equivalency**
Department:	**Africa CDC Headquarters**
Supervisor:	**Head of Division, Emergency Preparedness and Response**
Duty Station:	**Addis Ababa, Ethiopia**

Background:

The Africa Centres for Disease Control and Prevention (Africa CDC) is a specialized technical institution of the African Union that supports Member States in their efforts to strengthen their health systems. Africa CDC was officially launched in January 2017, and is guided by the principles of leadership, credibility, and ownership, and delegated authority, timely dissemination of information, transparency, accountability, and value addition. The institution works with all African countries to strengthen the capabilities of their public health institutions for disease surveillance, emergency response, prevention and control, including the capacity to detect and respond quickly and effectively to disease threats. It also serves as a platform for Member States to share and exchange knowledge and lessons from public health interventions.

Effective public health interventions/actions require an adequately staffed, highly skilled, diverse and interdisciplinary workforce. Given the diminishing ratio of the African Public health workforce to the dual burden of disease on the continent, there is need to strengthen and build capacity of public health workforce in the continent to meet the current responsibilities. Moreover, at its establishment in 2017, Africa CDC was tasked with coordinating and supporting the training and operationalization of the African Volunteers Health Corps (AVoHC), which is an approximately 800-strong multidisciplinary public health standby workforce based in countries across the continent. Since then, Africa CDC has responded to requests for AVoHC deployments for emergency response operations.

In seeking to achieve this objective and deliver on the mandate of the Africa CDC, the African Union intends to strengthen its capacity by the reinforcement of its organizational structure and expertise. The Africa CDC therefore seeks to recruit a national and citizen of any Member State of the African Union to the position of Technical Officer within the Emergency Preparedness and Response Division.

Job Purpose

Under direct supervision of the head of EPR Division, the technical officer will be responsible for carrying out a variety of technical and programs management support services in the area of pandemic preparedness and response and other public health programs implementation.

AFENET Secretariat
Lugogo House, Ground Floor (Wings B&C)

P.O BOX 12874, Kampala, Uganda
Tel: +256 417 700 650
Fax: +256 312 265 595
www.afenet.net

Major Duties and Responsibilities:

The Technical Officer – EPR, shall perform the following major duties and responsibilities:

- Support the development of Pandemic preparedness plans for Member States.
- Develop and recommend frameworks for multisectoral regional pandemic preparedness and response.
- Assist in simulation exercise on emergency preparedness jointly with Member States and other partners including WHO.
- Support Member States in responding to disease outbreak and other public health emergencies.
- Assist in efforts to build pandemic preparedness response capacity of Member States.
- Perform online directory management of the African Volunteer Health Corps (AVoHC) database and deployment of Emergency Response Teams (ERTs).
- Review training needs assessments of the AVoHC/ERT in Member States.
- Organize and conduct (AVoHC/ERT) capacity building trainings in Member States.
- Develop operational guidelines that will guide effective implementation of the division work plan.
- Perform any other duties as may be assigned by the Supervisor.

Requirements:

The Minimum academic requirements are:

- Master's degree in Public Health or a related field from an accredited academic institution with at least 2 years of relevant professional experience with demonstrated involvement in the successful development and management of emergency preparedness and response programs, or
- Bachelor's degree in the above fields with atleast 5 years of relevant professional experience in related fields.

Required Professional Work Experience:

- A minimum of 3 years of experience in supporting implementation of public health programs related to Emergency Preparedness and Response activities.
- Experience working with an international organization is a valuable asset.
- Previous experience working in Africa that reflects an in-depth knowledge of public health issues and public health workforce in general.
- Demonstrable experience and knowledge of operations of the Africa CDC and Regional Collaborating Centres.
- Understanding of the African Union's way of working and managing associated relationships with Member States and partners is a valuable asset.

- Experience with engagement and interaction with senior-level officials and other key stakeholders in both public and private-sector organizations.
- Strong analytical capacities
- Demonstrated ability to work as part of a team and personal qualities of integrity and credibility
- Excellent verbal and written communication skills with exceptional attention to details

Personal Skills:

- Ability to work under pressure, stay on track and meet deadlines
- Analytical and problem-solving abilities
- Proven ability to produce precise and intelligible reports and office briefs in line with the requirements of the African Union.
- Able to operate in a multicultural environment
- High level of autonomy at work, yet with profound team-spirit
- Adaptive, patient, resourceful, resilient and flexible
- Pro-active and solutions oriented
- Knowledge of results-based management

Language requirement:
Proficiency in one of the African Union working languages (Arabic, English, French, and Portuguese) is required. Knowledge of one or several other working languages would be an added advantage.

Tenure of appointment:
The appointment will be made on a fixed term contract for a period of one (1) year, of which the first three months will be considered as a probationary period. Thereafter, the contract will be renewed annually subject to satisfactory performance and fund availability.

9. Post

Job Title:	**Learning Management System Technical Officer – Institute for Workforce Development (IWD)**
Number of posts:	**1 (one)**
Grade:	**AUP2/1 equivalency**
Department:	**Africa CDC**
Supervisor:	**Head, Public Health Institutes and Research (NPHI) Division**
Duty Station:	**Addis Ababa, Ethiopia**

Job Purpose:
Under the direct supervision of the Head of Division, Public Health Institutes and Research Division the Learning Management System Technical Officer – Institute for Workforce Development (IWD) shall ensure the high-quality delivery of online training to various target audiences in Member States. S/he will be expected to, among other things, manage the on boarding of leaners, moderate high-quality webinars/short courses, maintain the Learning management

system and provide learning administrative solutions to Divisions, Regional Collaborating Centres (RCCs) and Member States.

Major Duties and Responsibilities:

The Learning Management System (LMS) Technical Officer – Institute for Workforce Development (IWD) shall perform the following duties and responsibilities:

- Work with other staff in the Division to plan, schedule, and coordinate with subject matter experts to develop online trainings on relevant topics.
- Plan, set-up, and moderate webinars in the official AU languages for different training topics – e.g., introduce training objectives and presenters, facilitate group discussions, manage break out rooms.
- Manage online discussion forums – e.g., consolidate questions, identify Frequently Asked Questions (FAQs), work with Subject Matter Experts to develop a set of answers to be posted online.
- In collaboration with other staff, perform needs assessment with faculty to identify improvements for curriculum resources, learning objectives, delivery techniques or learning activities.
- Contribute to the operation, support, and training of Africa CDC Staff, course faculty and target audience from Member States regarding the LMS and related applications.
- Coordinate the knowledge management of training content across various internal teams, undertake a quality control check, and upload to Africa CDC's online training platform with appropriate labelling and descriptions
- Manage the LMS by creating and uploading modules and courses, granting access and role-based user permissions, updating course content, and running reports.
- Cultivate and maintain a good relationship with internal IT system support resources.
- Provide technical assistance and instructional documentation to LMS end users.
- Provide support and feedback to users, supervisors and others who interact with the learning management system.
- Perform other related duties as may be assigned by the Supervisor.

Qualifications and Experience

- Experience in public health and facilitating online presentations and discussions. Experience in Instructional Design would be of added value.

Minimum Qualifications

The minimum qualification requirements are:

- Bachelor's degree and/or advanced certification in public health information system, information technology, health science or a related discipline with 5 years relevant working experience in PHIS, IT or related discipline.
- [Preferred] An advanced degree, e.g., a Master of Science (M.Sc.), or a Master of Arts (M.A.) with an emphasis in Public Health Information System (PHIS), Information Technology or online education a strong preference and 2 years relevant work experience

Required Professional Work Experience:

- Experience in supporting implementation of public health programmes with an emphasis on online learning, instructional design, IT, LMS management and health information systems.
- Experience in LMS and electronic content management is preferred.
- Experience working with an international organization is a valuable asset.
- Previous experience working in Africa that reflects an in-depth knowledge of public health workforce development issues and public health issues in general.
- Demonstrable experience and a fair knowledge of operations of the Africa CDC, Regional Collaborating Centres and National Public Health Institutes is preferred.
- Understanding of the African Union's way of working and managing associated relationships with Member States and partners is a valuable asset.

Skills and competencies required:

A. Functional Skills

- Demonstrable experience in presenting and facilitating presentations, ideally online and in Public Health topics
- Demonstrable familiarity with accepted online learning tools and techniques critical, experience working with Learning Management Systems (e.g. Canvas, Moodle, Bridge) is preferred.
- Knowledge of oral communication techniques and skill in presentation delivery, programme consultation and credible verbal response to inquiries.
- Excellent organizational and time-management skills and a proven ability to deliver under tight deadlines and work well under pressure.
- Demonstrable expertise in developing high-quality presentation documents, video editing and graphics preferred.
- Knowledge of interpersonal relationship practices and skills to meet and deal with persons of diverse backgrounds.
- Demonstrable proficiency in MS Word, MS Excel, Power Point, and data analysis packages.

B. Personal Skills

- Ability to work under pressure, stay on track and meet deadlines

- Analytical and problem-solving abilities
- Proven ability to produce precise and intelligible reports and office briefs in line with the requirements of the African Union.
- Able to operate in a multicultural environment
- High level of autonomy at work, yet with profound team-spirit
- Adaptive, patient, resourceful, resilient and flexible
- Pro-active and solutions oriented
- Knowledge of results-based management

Language requirement:
Proficiency in one of the African Union working languages (Arabic, English, French, and Portuguese) is required. Knowledge of one or several other working languages would be an added advantage.

Tenure of appointment:
The appointment will be made on a fixed term contract for a period of one (1) year, of which the first three months will be considered as a probationary period. Thereafter, the contract will be renewed annually subject to satisfactory performance and fund availability.

10. Post

Job Title:	**Communications and Graphics Design Officer**
Number of posts:	**1 (one)**
Grade:	**AUP2/1 equivalency**
Department:	**Africa CDC**
Supervisor:	**Head of the Division of Policy, Health Diplomacy and Communication**
